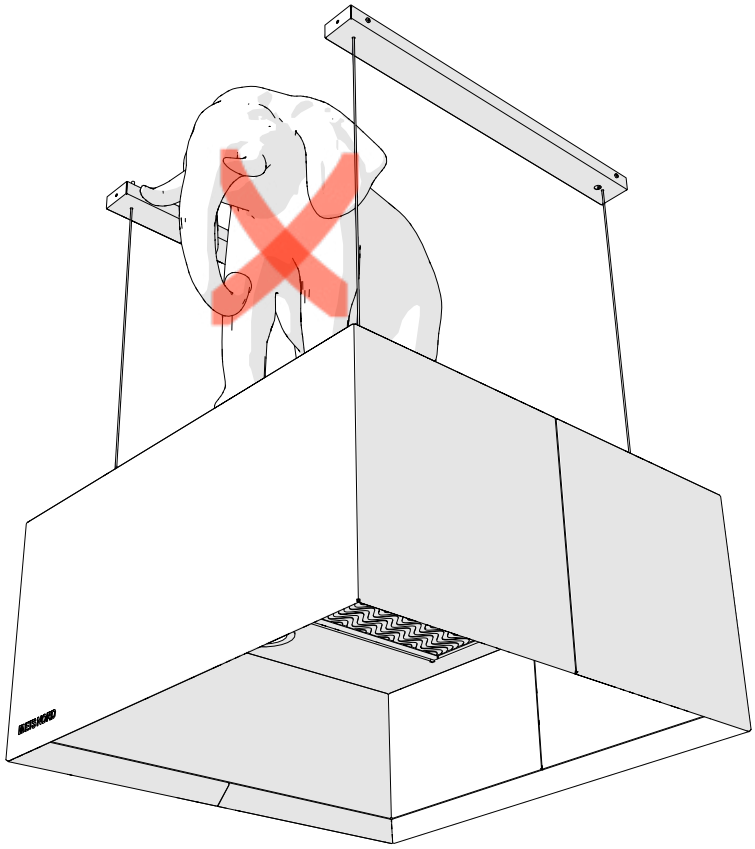
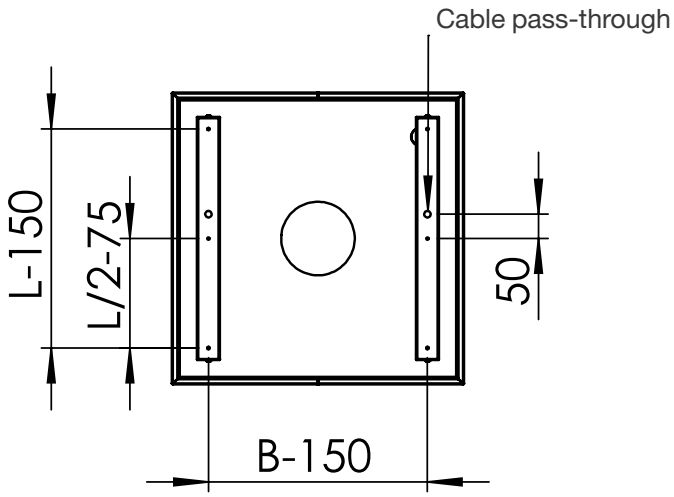
1. Safety

It is prohibited to place any additional items of weight on the top of the canopy.

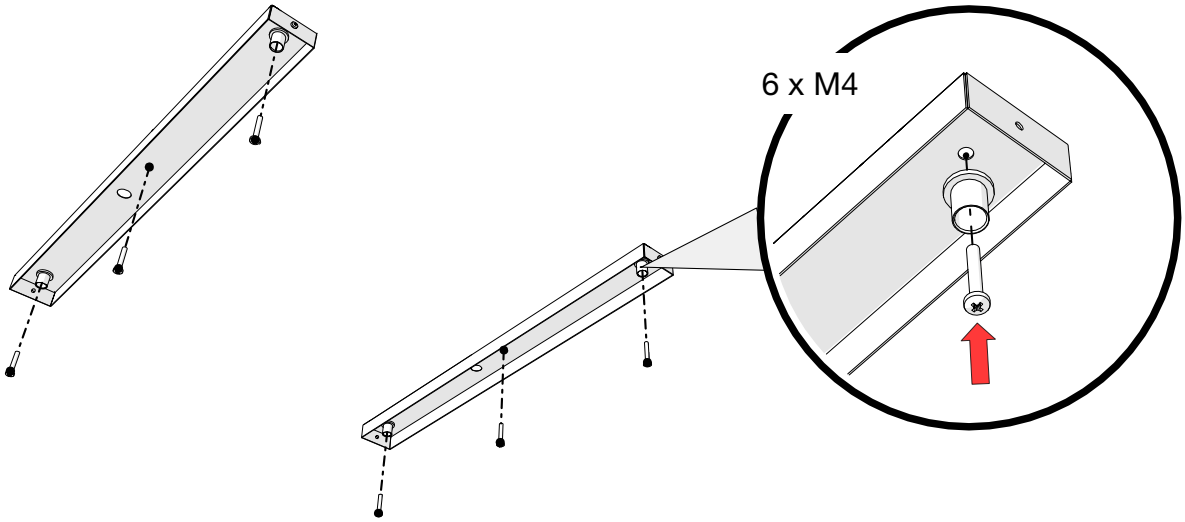


2. Installing the canopy

Relative positions of ceiling bracket mounting and electrical cable pass-through holes

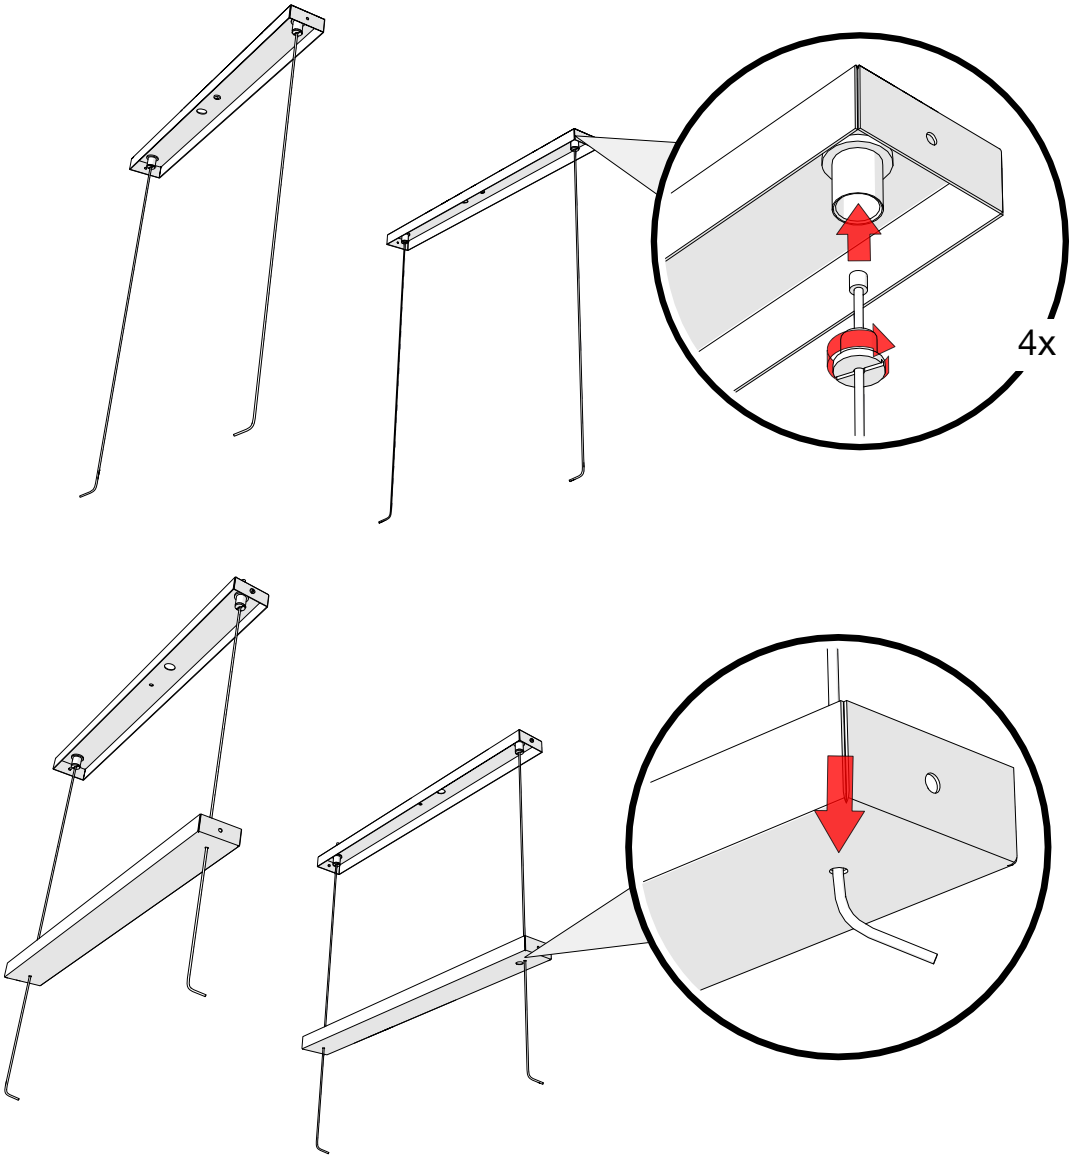


2.1 Fasten the ceiling brackets to the ceiling

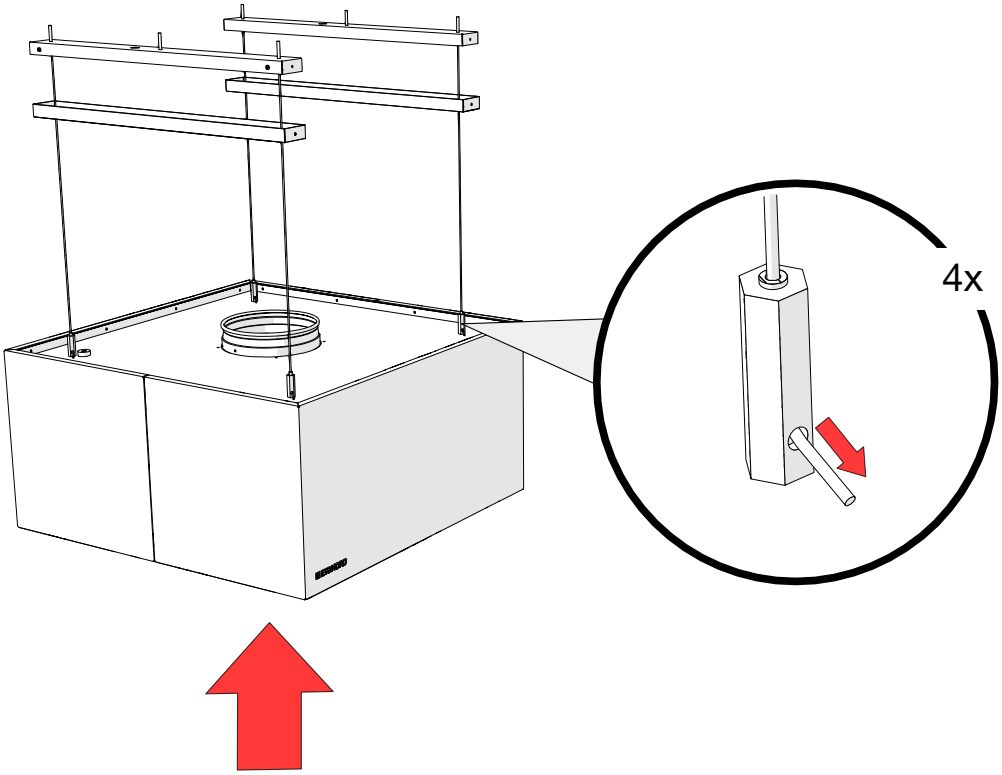


ATTN! Choose appropriate fastening devices depending on the ceiling type
Diameter of the mounting holes in the ceiling bracket are 4.5mm.

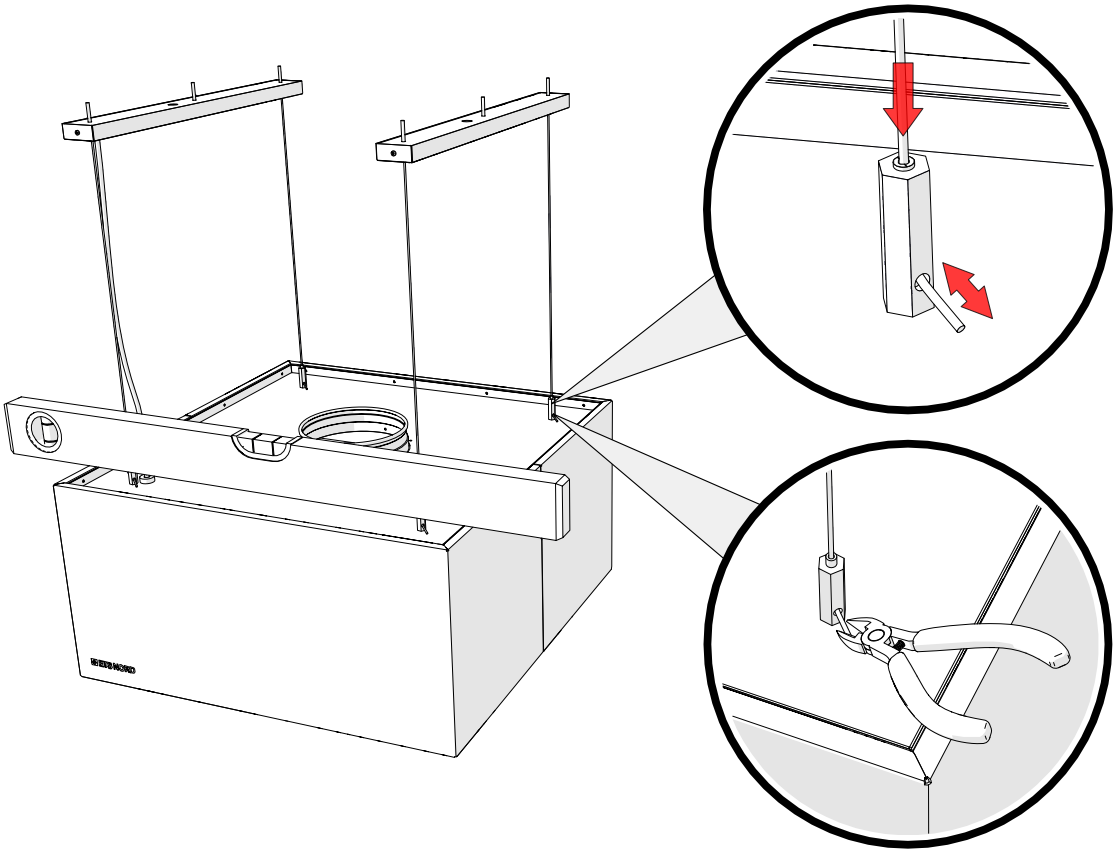
2.2 Hanging the suspension wires



2.3 Hanging the canopy

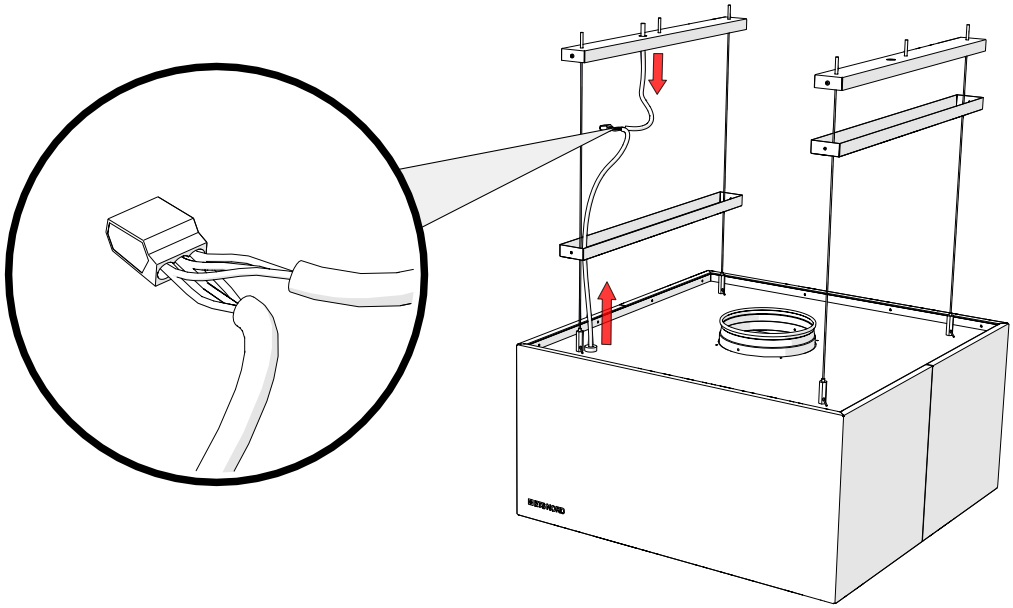


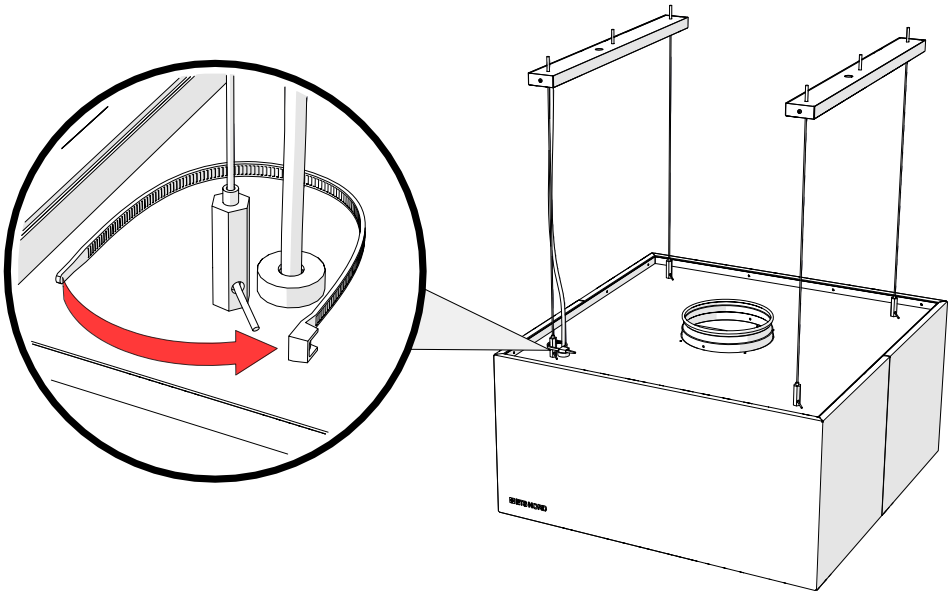
2.4 Leveling the canopy

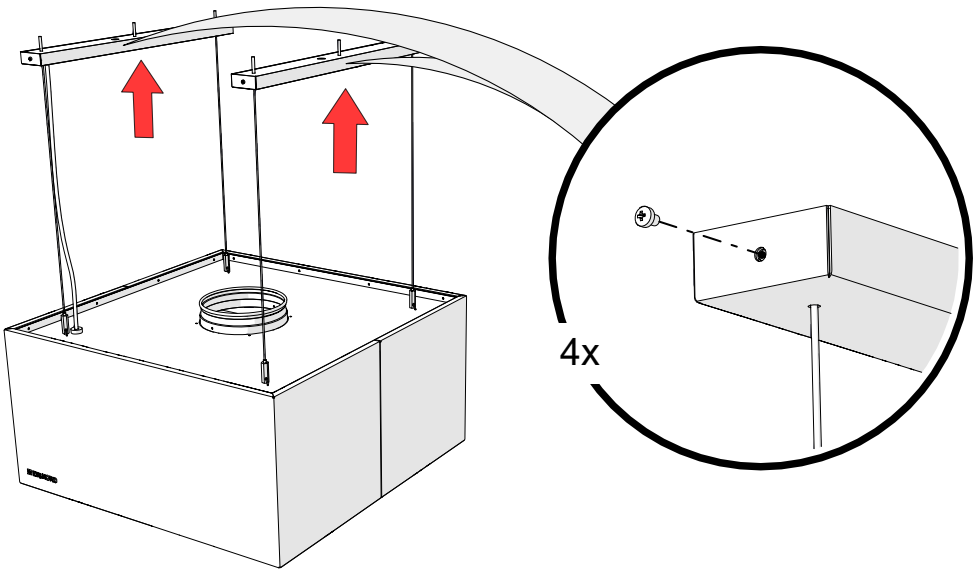


After the canopy has been leveled and is in its correct final resting position, you may then snip off unused cabel.

3. Lighting connection



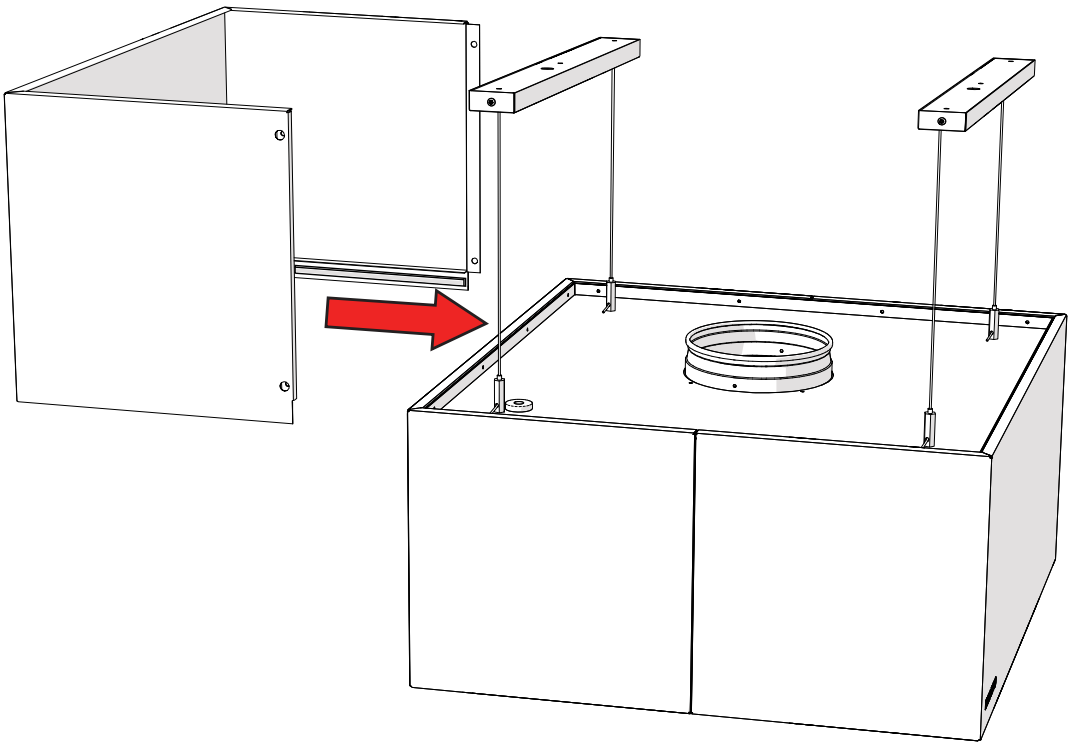


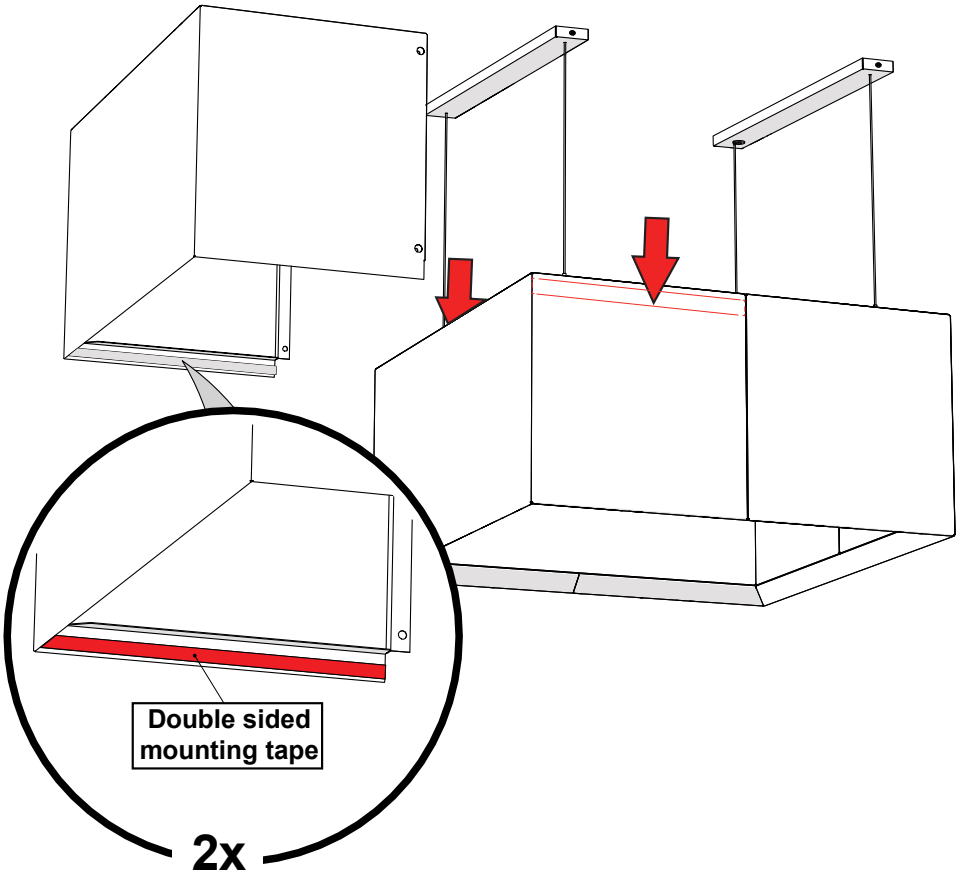


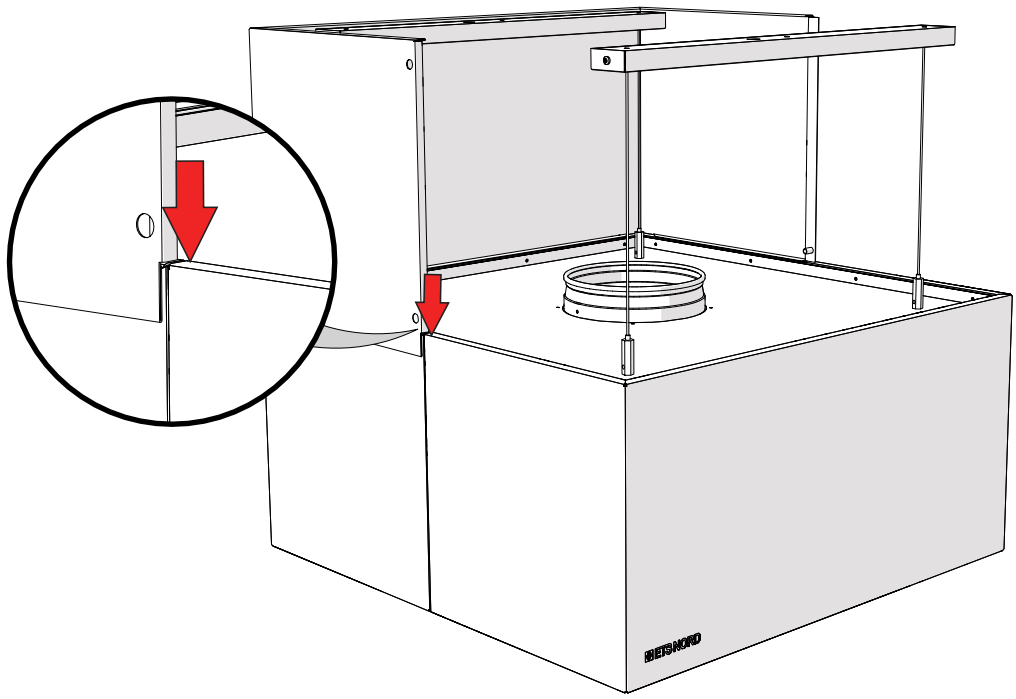
4. Accessories

4.1 Installation of cover plates

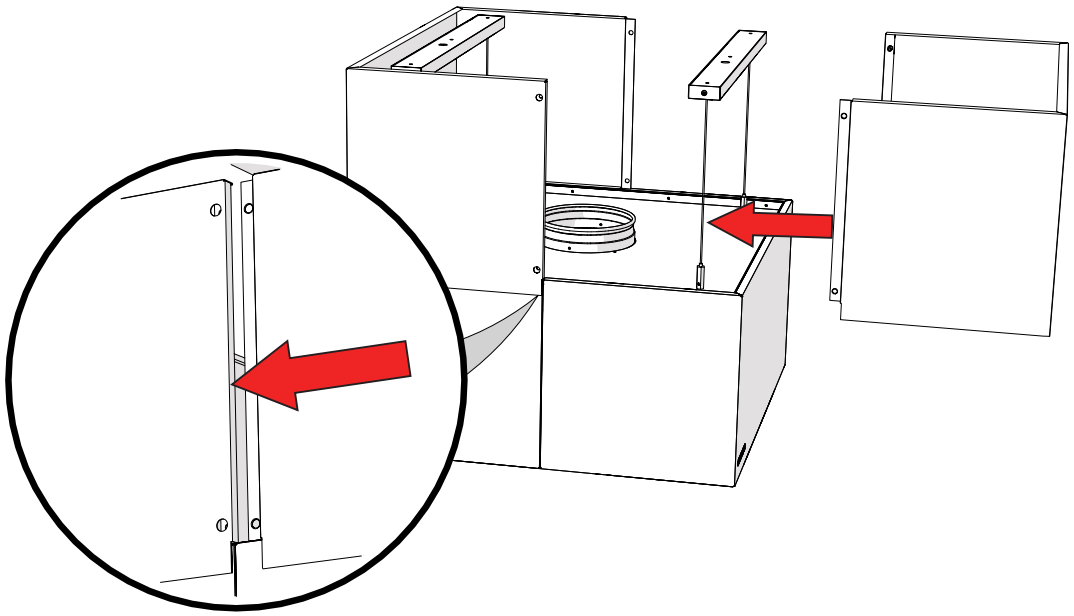
A

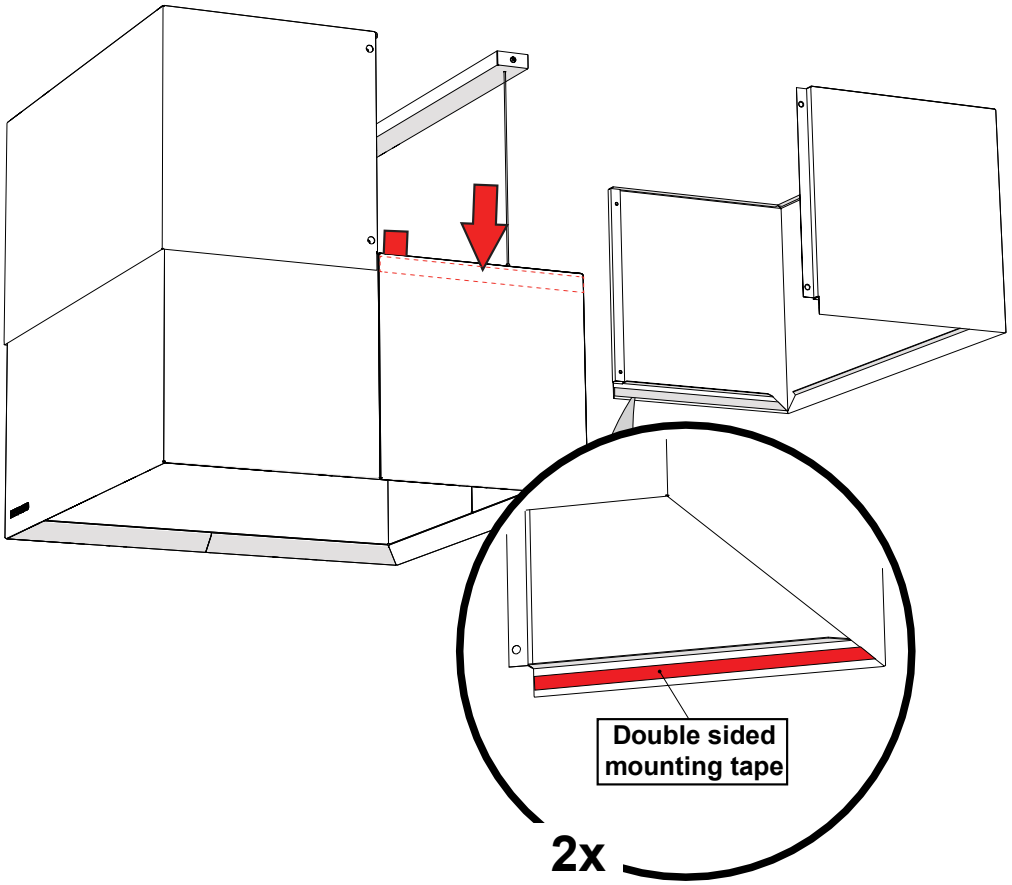




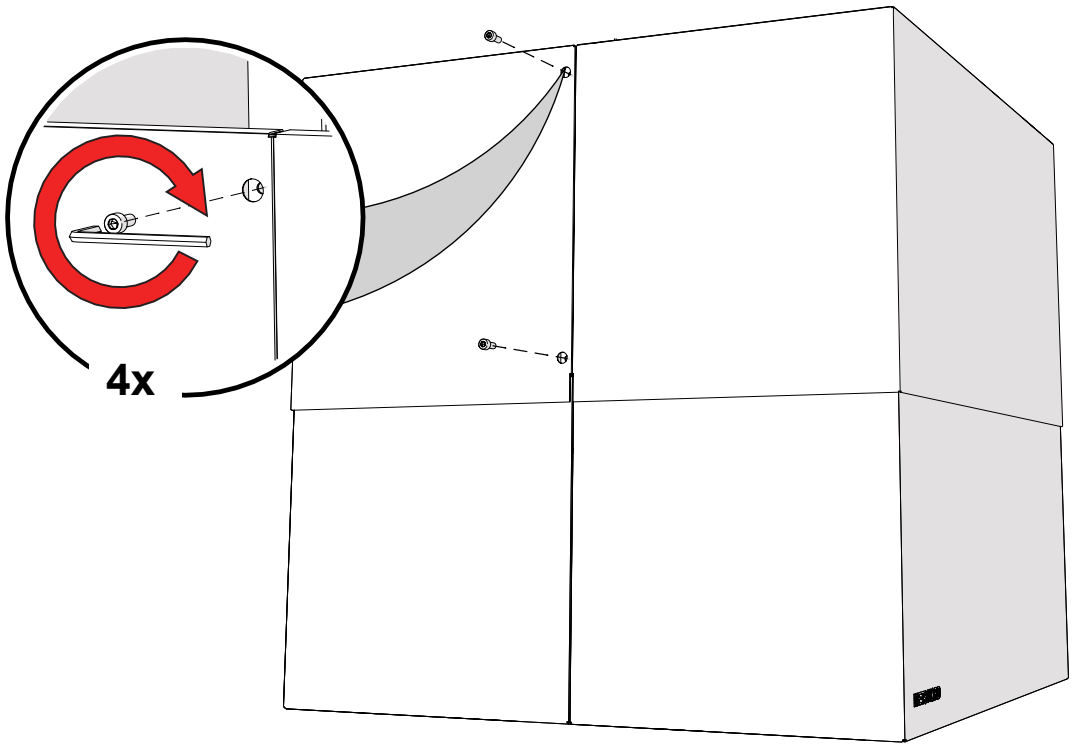


B



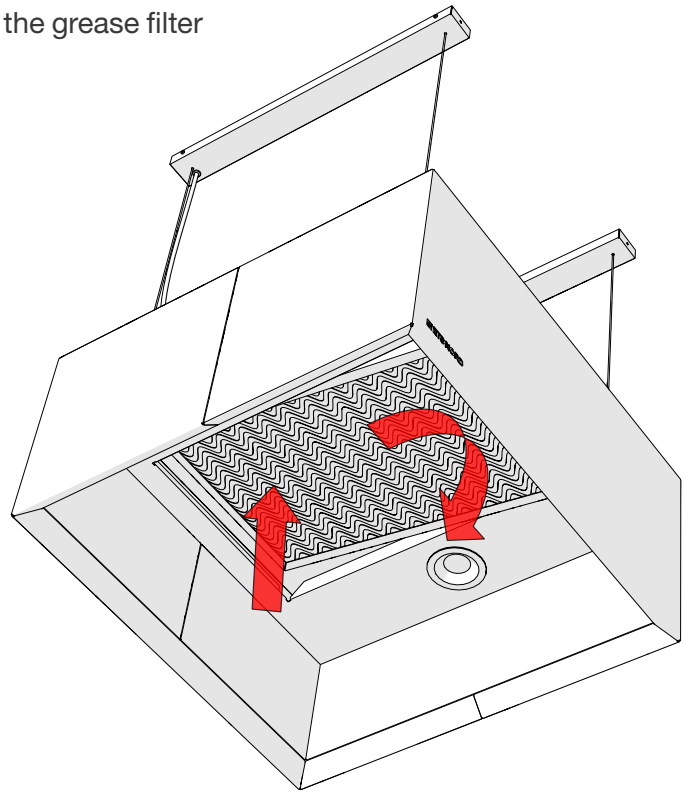


C

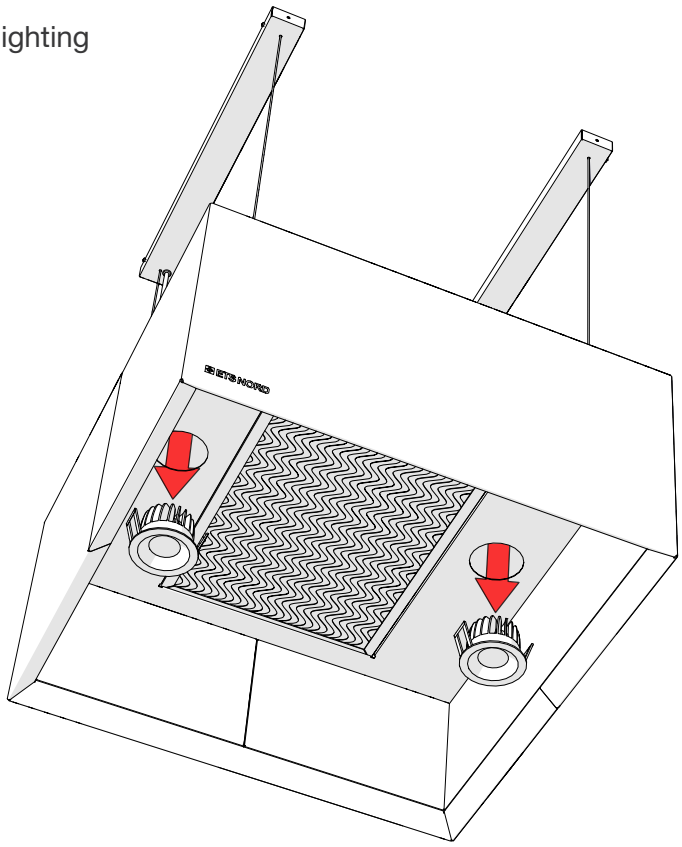


5. Kitchen Canopy maintenance

5.1 Removing the grease filter



5.2 Spot LED lighting



Spot LED lighting is fastened with spring clips on the top surface of the canopy ceiling. For replacing the luminaire, it should be pulled downward from the canopy ceiling.

5.3 Kitchen Canopy Maintenance

All internal and external surfaces of the kitchen canopy, including light fixtures, are cleaned using neutral cleaning agents. Carefully rinse the surfaces after cleaning, in order to avoid harmful interactions of cleaning agents and high temperatures.

ATTN! Do not use hard or abrasive detergents, chlorine or bleach when cleaning the canopy!

Recommended daily:

Never clean the kitchen canopy when any of its surfaces are hot. To clean the grease filter it must be removed from the kitchen canopy. It may be washed by hand, in a dishwasher, or steam-cleaned. Liquid grease must always be disposed of using methods approved according to local regulations.
