RSC Egg Crate Grille

RSC is a circular extract and transfer grille designed for ceiling and wall installation. It's squared 13x13 mm grid ensures high free area and great airflow capacity.

Suitable for direct installation in circular ducts for extract air applications

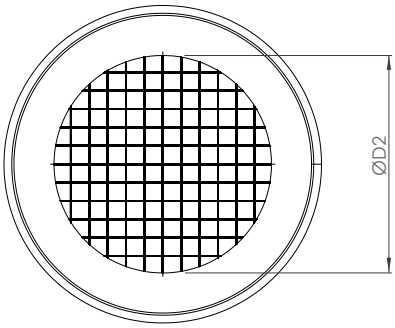

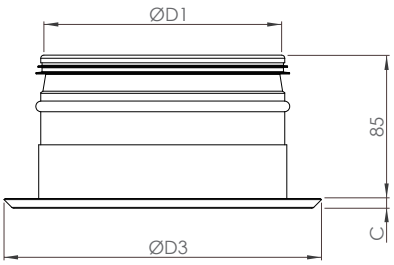

Structure and Dimensions

The grille consists of an aluminium grid and frame. The duct connection is manufactured from galvanized steel (Z275) and is equipped with a gasket.

The grille is available in standard sizes ranging from Ø100 to Ø500.

The standard finish is white, RAL 9003, while other colours are available on request.

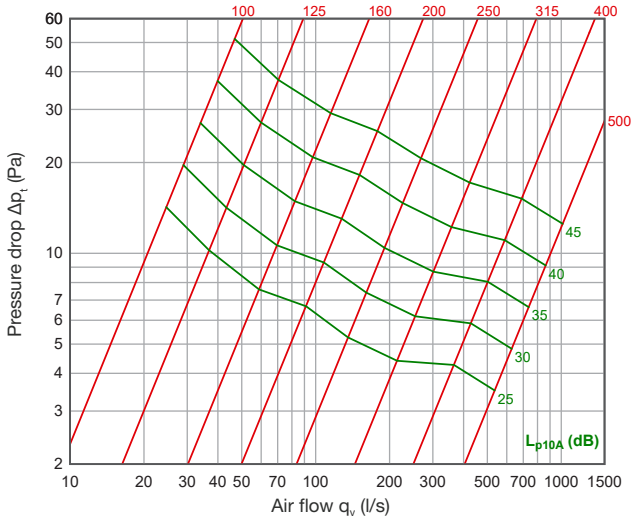

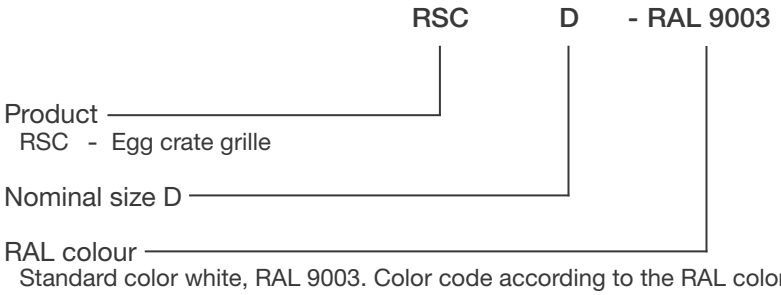

Nominal size (mm)	ØD1 (mm)	ØD2 (mm)	ØD3 (mm)	C (mm)	Weight (kg)
100	98	60	150	8	0,20
125	123	85	175	8	0,26
160	158	120	210	8	0,34
200	198	160	250	8	0,44
250	248	210	300	8	0,58
315	313	275	365	8	0,78
400	398	360	450	8	1,22
500	498	460	550	8	1,55
